The State of World Fisheries and Aquaculture

Opportunities and challenges

CONTENTS

Foreword	iii
Acknowledgements	xi
Abbreviations and acronyms	xii

PART 1 WORLD REVIEW OF FISHERIES AND AQUACULTURE

Status and trends	3
Overview	3
Capture fisheries production	9
Aquaculture	18
Fishers and fish farmers	27
The status of the fishing fleet	32
The status of fishery resources	37
Fish utilization and processing	41
Fish trade and commodities	46
Fish consumption	62
Governance and policy	69
Notes	93

PART 2 SELECTED ISSUES IN FISHERIES AND AQUACULTURE

Small-scale fisheries: promoting collective action and organization for long-term benefits	99
The issue	99
Possible solutions	101
Recent actions	102
Outlook	104
The role of aquaculture in improving nutrition: opportunities and challenges	104
The issue	104
Possible solutions	107
Recent actions	108
Outlook	108
Post-harvest losses in small-scale fisheries	109
The issue	109
Possible solutions	110
Recent actions	115
Outlook	115
Management of inland waters for fish: a cross-sectoral and multidisciplinary approach	116
The issue	116
Possible solutions	117
Recent actions	119
Outlook	120
Continuing challenges for the conservation and management of sharks	121
The issue	121
Possible solutions	126
Recent actions	128
Outlook	130

Key approaches to the international fight against IUU fishing	130
The issue	130
Possible solutions	131
Recent actions	134
Outlook	135
Balanced harvest	136
The issue	136
Possible solutions	137
Recent actions	140
Outlook	140
Notes	142

PART 3 HIGHLIGHTS OF SPECIAL STUDIES

Fish consumption in the Asia-Pacific region as measured by household surveys	151
Understanding fish consumption through household surveys	151
Comparison with FAO apparent consumption figures	152
Consumption of fish and fish products	152
Conclusions	156
Key elements of the Voluntary Guidelines on the Governance of Tenure of Land, Forests and Fisheries in the Context of National Food Security for the fisheries sector	156
Introduction	156
Key issue 1: Understanding tenure	157
Key issue 2: Tenure rights in fisheries	158
Key issue 3: The benefits of responsible governance of tenure in fisheries	159
Key issue 4: Achieving responsible governance of tenure in fisheries	159
Conclusion	161
Transition from low-value fish to compound feeds in marine cage farming in Asia	161
Introduction	161
Project activities	163
Synthesis of project findings	165
Conclusions	167
Recommendations	168
Challenges and opportunities in the utilization of fisheries by-products	169
Utilization of by-products for human consumption	169
Utilization of by-products for animal feed	171
Nutraceuticals and bioactive ingredients	171
Challenges facing the fisheries by-product industry	172
Snapshot of the activities of regional fishery bodies as a basis for enhancing collaboration	173
Introduction	173
The August 2013 Snapshot	174
Conclusion	180
Initial assessments of vulnerabilities to climate change in fisheries and aquaculture	181
Introduction	181
Summaries of vulnerabilities within case studies	181
Common issues across the case studies	186
Recommendations for adaptation from the case studies	191
Notes	192

PART 4
OUTLOOK

Meeting future fish demand: outlook and approaches	199
Expected trends in fish supply and demand	199
Meeting future demand for fish	207
Overall conclusions and recommendations	220
Notes	221

TABLES

Table 1		
World fisheries and aquaculture production and utilization		4
Table 2		
Marine capture fisheries: major producer countries		10
Table 3		
Marine capture: major fishing areas		11
Table 4		
Marine capture: major species and genera		16
Table 5		
Inland waters capture: major producer countries		18
Table 6		
Aquaculture production by region: quantity and percentage of world total production		20
Table 7		
Farmed food fish production by top 15 producers and main groups of farmed species in 2012		22
Table 8		
World production of farmed species groups from inland aquaculture and mariculture in 2012		23
Table 9		
Aquaculture production of farmed aquatic plants in the world and selected major producers		26
Table 10		
World fishers and fish farmers by region		28
Table 11		
Comparative average annual percentage growth rate by region and period		29
Table 12		
Number of fishers and fish farmers in selected countries and territories		30
Table 13		
Fishery production per fisher or fish farmer by region		31
Table 14		
Numbers and proportion in terms of length of motorized vessels in fishing fleets from selected countries and territories		35
Table 15		
Motorized fishing fleets in selected countries, 2000–2012		36
Table 16		
Top ten exporters and importers of fish and fishery products		50
Table 17		
Total and per capita food fish supply by continent and economic grouping in 2010		63
