

TEKNOLOGI INDONESIA

Volume 35 No.3

2012

Content/Isi	Page/ Halaman
Design and Analysis of the Prototype of Pico Hydro Scale Submersible Type Turbine-Generator for Flat Flow River Application.....	1
Investigation of Hydrogen Flow Uniformity in a Serpentine Separator Plate of a PEMFC Using Computational Fluid Dynamics Simulation.....	9
Method of Delineate of the ITCZ for the ITCZ Monitoring System Related to Early Season.....	18
Annual Migration of Monsoon Over Indonesia Maritime Continent Based on OLR Data.....	27
Performance Evaluation of Friction Materials for Railway Brake Application Using Oil Palm Empty Fruit Bunch Fiber as Reinforcement.....	40
Anatomical and Physiological Characteristics of Reclamation Plant on the Post-Mining Land in Riding Panjang, Bangka.....	52
ERRATUM	59
Kultur Kotil, Hipoktil dan Epikotil Tanaman Buah Naga secara Invitro.....	60
Penampisan Bakteri Endofit Pendegrasi Pati dan Taman Nasional Gunung Halimun (TNGH).....	61
