"Converging biorefinery to response climate change"

A Scientific Journal in Life Sciences with Emphasis in Biotechnology,
Molecular Biology and Biochemistry

Indonesian Institute of Sciences

Volume 14, No. 1, 2010
CONTENTS

Application of Microwave Heating in Biomass Hydrolysis and Pretreatment for Ethanol Production <i>Euis Hermiati, Djumali Mangunwidjadja, Titi C. Sunarti, Ono Suparno, and Bambang Prasetya</i>	1
Control of Biodegradability of Polyurethane Foam Based on Palm Oil by Ratio of Soft Segment on The Polymer Backbone <i>Agus Haryono, Evi Triwulandari, Dewi Sondari, Ahmad Randy, and Asep Muhammad Ridwanuloh</i>	11
Screening for Natural Procedures Capable of Producing 1,3-Propanediol from Glycerol <i>Dian Andriani, Wien Kusharyoto, Bambang Prasetya, Thomas Willke, and Klaus Dieter Vorlop</i>	19
The Influence of Harvesting Period on Lipid Associated Antioxidant Activity of Semicontinuously Grown <i>Chlorella Vulgaris</i> <i>Tjandra Chrismadha, Diani Sartika, Iriani Setyaningsih, and Uju</i>	25
Screening and Optimization of Cellulase Production of <i>Bacillus Subtilis</i> Td6 Isolated from <i>Takifugu Rubripes</i> Fish <i>Dian Andriani and Don Hee Park</i>	31
Rapid Assessment of Diverse Trichoderma Isolates of Indonesian Origin for Cellulase Production <i>Fahrurrozi, Shanti Ratnakomala, Trisanti Anindyawati, Puspita Lisdiyanti and Endang Sukara</i>	39
