CONTENT

<b>Serik Orazbaev, Radka Ivanova, Yalkun Abdurakhmanov</b> Effect of the sowing rate on the development and productivity of oilseed flax in Southeastern Kazakhstan ...	5
<b>Veselin Ivanov, Ivan Yanchev, Ludmil Angelov, Boyan Stalev</b> Study on the phenological stages of sweet basil and their duration in the region of Plovdiv .....	11
<b>Nikolay Dimitrov</b> Effect of the storage duration and moisture on the temperature pattern of respiration of soft wheat grain ( <i>Triticum aestivum</i> L.) .....	19
<b>Daniela Kertikova, Yordanka Naydenova, Dimitar Yankov</b> Evaluation of the productivity and quality of elite alfalfa clones .....	25
<b>Neshka Piperkova</b> In vitro screening of fungicides for yeast like form of <i>Taphrina deformans</i> /Berk./ Tul. ....	33
<b>Stanko Georgiev, Stanislav Stamatov, Manol Deshev</b> Selection of parental pairs in the hybridization of sesame whip aimed at the creation of cultivars for mechanical harvesting, applying quantitative and complex assesment of the source material .....	39
<b>Manol Deshev</b> A model for quantitative and complex assessment of sesame varieties in the collection of plant genetic resources and breeding lines suitable for mechanized harvesting.....	47
<b>Lyubomir Ivanov</b> Expression of heterosis and degree of dominance in F <sub>1</sub> generation of the following traits height of the top maize ear, length of the maize ear and number of grains in a row in maize hybrids with 139 96 B paternal line.....	53
<b>Anyo Mitkov, Andon Vassilev, Tonyo Tonev</b> Determining the physiological responses of barley and oats to provocatively inflated doses of certain herbicides .....	59
<b>Dimitar Cholakov, Nikolina Shopova, Dimka Haytova</b> Removal of nitrogen, phosphorus and potassium with the yield and vegetative mass of late tomatoes depending on the composition of the seedling substrate .....	65
<b>Svetla Kostadinova</b> Accumulation and reutilization of barley dry mass dependening on fertilization .....	71
<b>Vanya Delibaltova, Ivan Yanchev, Hristofor Kirchev, Stamen Georgiev</b> Effect of nitrogen fertilization and the sowing rate on the productivity of Marokan coriander ( <i>Coriandrum sativum</i> L.). Variety in the region of Plovdiv.....	79
<b>Alexander Matev, Velika Kuneva, Padost Kalaidjieva</b> The use of cluster analysis to assess the impact of different irrigation regimes based on basic biometric elements of soybean CV <i>Srebrina</i> .....	85
<b>Manol Dallev, Zhulieta Arnaudova, Vera Stefanova</b> Optimizing the aggregate composition of heavy Sandy-Loamy soils by GIS application.....	91
<b>Ivelina Zapryanova</b> Study on the pre-weaning growth performance of hybrid piglets .....	95
<b>Petar Borisov, Teodor Radev, Vasko Koprivlenski</b> Investment activity of vine-growing holdings and secondary effects under the conditions of CAP (following the example of the municipality of Lyubimets) .....	101
<b>Ivanka Lulcheva, Stefan Videv</b> Theoretical basis of rural tourism .....	109
<b>Olena Katerusha, Tamerlan Safranov</b> Evaluation of thermal comfort conditions in the Odessa region .....	117
<b>Wanda Bacieczko, Emilia Kaszycka, Agnieszka Borcz</b> Phytosociology as a science and its practical application in various fields (Review).....	125
<b>Nikolay Panayotov, Irena Ivanova, Ani Popova</b> Determination of the leaf area of a whole plant of cape gooseberry ( <i>Physalis peruviana</i> L.) (Brief report) .....	131
<b>Hristo Hristev, Ivelina Zapryanova</b> Study of the microclimate in a building for boars (Brief report).....	137
