Partners in Research for Development is the flagship publication of the Australian Centre for International Agricultural Research (ACIAR). *Partners* presents articles that summarise results from ACIAR-brokered research projects and put ACIAR research initiatives into perspective. Technical enquiries will be passed on to the appropriate researchers for reply. Reprinting of articles, either whole or in part, is welcomed, provided that the source is acknowledged.

This publication is freely available electronically from the ACIAR website at aciar.gov.au. Hard copies are also freely available on request from ACIAR. The use of a trade name does not constitute any endorsement of, or discrimination against, any product by ACIAR.

This publication has been funded by the Australian Government through the Australian Centre for International Agricultural Research. The views expressed in this publication are the author's alone and are not necessarily the views of the Australian Government.
