

Animal Nutrition

Volume 6, Issue 4, December 2020

Table of Contents

SPECIAL SECTION: Microbiota, gut health, and host metabolism (Part 1)

Animal Nutrition thank Dr. Gang Liu and Dr. Jie Yin of Hunan Agriculture University, China for their skills and dedication in organising and editing the papers.

Opportunities of prebiotics for the intestinal health of monogastric animals

Md A.K. Azad, Jing Gao, Jie Ma, Tiejun Li, ... Jie Yin

Interplay between gut microbiota and antimicrobial peptides

Xin Zong, Jie Fu, Bocheng Xu, Yizhen Wang, Mingliang Jin

Dietary fiber and microbiota interaction regulates sow metabolism and reproductive performance

Min Tian, Jiaming Chen, Jiaxin Liu, Fang Chen, ... Shihai Zhang

Dietary polyphenols in lipid metabolism: A role of gut microbiome

Jie Ma, Yongmin Zheng, Wenjie Tang, Wenxin Yan, ... Gang Liu

Swine gut microbiota and its interaction with host nutrient metabolism

Hongyu Wang, Rongying Xu, He Zhang, Yong Su, Weiyun Zhu

Reviews

Mechanistic insight into the gut microbiome and its interaction with host immunity and inflammation

Junjing Xue, Kolapo M. Ajuwon, Rejun Fang

Nutritional value, bioactivity, and application potential of Jerusalem artichoke (*Helianthus tuberosus* L.) as a neotype feed resource

Yue Wang, Yiguang Zhao, Fuguang Xue, Xuemei Nan, ... Benhai Xiong

Swine Nutrition

Regulatory role of L-proline in fetal pig growth and intestinal epithelial cell proliferation

Jing Wang, Bi'e Tan, Jianjun Li, Xiangfeng Kong, ... Guoyao Wu

Imbalanced dietary methionine-to-sulfur amino acid ratio can affect amino acid profiles, antioxidant capacity, and intestinal morphology of piglets

Miaomiao Bai, Lei Wang, Hongnan Liu, Kang Xu, ... Yulong Yin

Dietary xylanase and live yeast supplementation influence intestinal bacterial populations and growth performance of piglets fed a sorghum-based diet

Gemma González-Ortiz, Marco A. Callegari, Pete Wilcock, Diego Melo-Duran, ... Caio A. da Silva

Poultry Nutrition

Dietary supplementation of 25-hydroxycholecalciferol increases tibial mass by suppression bone resorption in meat ducks

Huaiyong Zhang, Qiufeng Zeng, Shiping Bai, Jianping Wang, ... Keying Zhang

Chromium propionate improves performance and carcass traits in broilers

Veerle Van Hoeck, Mahendra Sonawane, Antonio L. Gonzalez Sanchez, Iris Van Dosselaer, ... Dany Morisset

Over-processed meat and bone meal and phytase effects on broilers challenged with subclinical necrotic enteritis: Part 2. Inositol phosphate esters hydrolysis, intestinal permeability, hematology, jejunal gene expression and intestinal morphology

Holy K. Zanu, Sarbast K. Kheravii, Natalie K. Morgan, Michael R. Bedford, Robert A. Swick

Ruminant and Herbivore Nutrition

Effects of dietary energy on growth performance, carcass characteristics, serum biochemical index, and meat quality of female Hu lambs

Yancan Wang, Qiye Wang, Chunpeng Dai, Jianzhong Li, ... Huansheng Yang

Dietary supplementation of yeast cell wall improves the gastrointestinal development of weaned calves

Jian Ma, Ali M. Shah, Yaqun Shao, Zhisheng Wang, ... Kun Kang

Molecular Nutrition

A selectively suppressing amino acid transporter: Sodium-coupled neutral amino acid transporter 2 inhibits cell growth and mammalian target of rapamycin complex 1 pathway in skeletal muscle cells

Lingyu Zhang, Yehui Duan, Qiuping Guo, Wenlong Wang, Fengna Li

Feed Evaluation

Protein digestive dynamics of meat and bone meals in broiler chickens

Shemil P. Macelline, Leon R. McQuade, Bernie V. McInerney, Amy F. Moss, ... Sonia Y. Liu

Short Communication

Effects of stocking density on growth performance, blood parameters and immunity of growing pigs

Xue Li, Xia Xiong, Xin Wu, Gang Liu, ... Yulong Yin
