## FOCUS

- 04 Moving from water problems to water solutions in a climate-challenged world
- 08 Water for all – making SDG 6 a reality
- 11 Facts and figures on water
- 12 Rainwater harvesting – more than sound water management
- 16 Water – a shared resource requiring inclusive water diplomacy
- 18 Public-private partnerships in irrigation – how can smallholders benefit?
- 21 Groundwater management: significance of rural well drillers underrated
- 22 Capacity development for solar-powered irrigation
- 24 Marginal-quality waters for irrigation in water-scarce areas
- 26 Tackling agricultural water pollution: a 21<sup>st</sup> century challenge
- 28 On the way towards water stewardship – experience from Pakistan
- 31 “The world we want tomorrow starts with how we do business today”  
Five questions to Ian Knight, Global Sustainability Manager at Mars
- 32 The water footprint – a practical tool for water resilient value chains and catchments

## OPINION

- 34 “We must mobilise all available resources”  
A case for more research on alternative crops and smart water solutions

## SCIENTIFIC WORLD

- 36 Saving water and energy with an intelligent subsurface irrigation system

## INTERNATIONAL PLATFORM

- 38 Namibia's bush business  
Translating bush encroachment into economic value
- 41 Empowering women through mechanisation: Where are the opportunities?
