

August 5-9, 2019
ICTs for Precision Agriculture
 International Workshop
 Selangor, Malaysia

The workshop focuses on rice production

- Session 1: Understanding Precision Agriculture
- Session 2: Technology Packages for Precision Agriculture
- Session 3: Precision Agriculture in Asia
- Open Discussion
- Education Day

For more information, please contact us at: infofft134@gmail.com

Organizer:
 Food and Fertilizer Technology Center (FFTC)
 National Agricultural Research and Extension Station (NARES)

Plant Tissue
Fertilizers
Soil

Proficiency Testing

FFTC 2019 Proficiency Testing Program of Soil, Plant Tissue and Fertilizer Analysis

2019. 9. 17-18
 International Symposium
 on Implementing
the Satoyama Initiative
 for the Benefit of Biodiversity and Human Well-being

UNIQUENESS AND CONTRIBUTION OF THIS OPPORTUNITY

- Taken Experience
- Experience sharing and dialogue with global communities and experts
- Future perspective, development and recommendations

VENUE
 Nares District Agricultural Research and Extension Station
 No. 952 Section 3, 2nd Road, Jai-Tonkha, Nares County 173

For further information, please contact FFTC official website or Facebook, or call the following number: 856-2-2526229 (V.O.)

 *In response to environmental protection, participants are required to bring their own bottles or thermos.

ANNUAL REPORT

2019

Food and Fertilizer Technology Center for the Asian and Pacific Region

An agricultural, technological and policy information center for small-scale farmers in the Asian and Pacific Region

MARO-FFTC Joint Symposium 2019
 Current Trends and Perspectives of IoT/AI Technologies in the Livestock Industry

2019
 October 24-25

Session 1: Precision and Smart Farming Systems
 Session 2: IoT/AI Technologies for Improving Animal Production and Welfare
 Session 3: IoT/AI Technologies for Detecting Animal Diseases

Participation & Registration
 Participation fee is free. Pre-registration is required. Participants are requested to hold an e-Authorization card at the symposium reception desk.
 *Online registration: <https://www.maro-fftcc.jp/fftcc/2019/10/24-25>

International Symposium on Smart Agriculture for Environmentally and Consumer Friendly Food Production
 At International Conference Room, 4F, Library of National Pingtung University of Science and Technology

MAY 20 28-29 19

ANNUAL REPORT

2019

**Food and Fertilizer Technology Center
for the Asian and Pacific Region**

An agricultural, technological and policy information center for
small-scale farmers in the Asian and Pacific Region

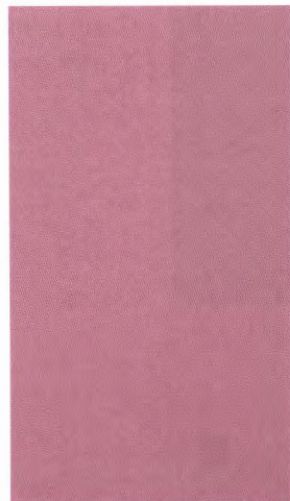

Table of CONTENTS

- PREFACE - III
- INTRODUCTION - 01
- 2019 MILESTONES
 - Collection of information and technologies - 06**
 - Seminars and workshops**
 - Current trends and perspectives of IoT/AI technologies in livestock industry - 07
 - Developing innovation strategies in the era of data driven agriculture - 11
 - ICTs for precision agriculture - 14
 - Ecosystem approach to fisheries management - 17
 - Smart agriculture for environmentally and consumer friendly food production - 20
 - Implementing the Satoyama initiative for the benefit of biodiversity and human well-being - 23
 - Enabling capacity in production and application of biopesticides and biofertilizer for soil-borne disease control and organic farming - 26
 - FFTC 2019 proficiency testing program of soil, plant tissue, and fertilizer analysis - 29
 - FFTC agricultural policy platform (FFTC-AP) (Year 7) - 31
 - Enhancing collaborative research network on value chain and control of dragon fruit diseases and pests in Southeast and South Asia (Year 2) - 33
 - Disseminating information on agricultural technologies**
 - FFTC publication and website on Asian agriculture - 36
 - Expanding networks**
 - Other activities - 39
- SCALING UP FOR FUTURE CHALLENGES - 48
 - FFTC Work Program for 2020 - 48
- THE 2019 FFTC MANAGEMENT - 64
