5 New articles available on ScienceDirect
Nov 2014

1. [The effect of hybridization on fish physiology, immunity and blood biochemistry: A case study in hybridizing *Cyprinus carpio* and *Carassius gibelio* \(Cyprinidae\)](#) Original Research Article
Aquaculture, Volume 435, 1 January 2015, Pages 381-389
Andrea Šimková, Libor Vojtek, Karel Halačka, Pavel Hyršl, Lukáš Vetešník
2. [Mycorrhizal inoculation affected growth, mineral composition, proteins and sugars in lettuces biofortified with organic or inorganic selenocompounds](#) Original Research Article
Scientia Horticulturae, Volume 180, 17 December 2014, Pages 40-51
Carmen Sanmartín, Idoia Garmendia, Beatriz Romano, Marta Díaz, Juan Antonio Palop, Nieves Goicoechea
3. [Effects of organic vs. conventional farming system on yield and quality of strawberry grown as an annual or biennial crop in southern Italy](#) Original Research Article
Scientia Horticulturae, Volume 180, 17 December 2014, Pages 63-71
Stefano Conti, Gerardo Villari, Salvatore Faugno, Giuseppe Melchionna, Silvano Somma, Gianluca Caruso
4. [Ecological pharmacodynamics: prey toxin evolution depends on the physiological characteristics of predators](#) Original Research Article
Animal Behaviour, Volume 98, December 2014, Pages 53-67
Michael P. Speed, Graeme D. Ruxton
5. [Lazy sons, self-sufficient daughters: are sons more demanding?](#) Original Research Article
Animal Behaviour, Volume 98, December 2014, Pages 69-78
Paolo Piedrahita, Kristine Meise, Christiane Werner, Oliver Krüger, Fritz Trillmich
