Nations

IPTRID programme formulation report  
No. 1 – September 1997

## Contents

|  | page |
|--|------|
| OBJECTIVES AND APPROACH  | 1    |
| OVERVIEW OF IRRIGATION IN INDONESIA  | 2    |
| WATER RESOURCES MANAGEMENT   | 4    |
| Competition and allocation   | 4    |
| Water resources policy   | 5    |
| MANAGEMENT OF IRRIGATION SYSTEMS   | 6    |
| Organization and financing   | 6    |
| Maintenance  | 8    |
| Design-management interactions   | 9    |
| RESEARCH CAPACITY  | 11   |
| PROPOSALS FOR RESEARCH AND CAPACITY BUILDING   | 12   |
| Comparison of alternate design-management systems  | 12   |
| Design guidelines for farmer-managed irrigation systems (FMIS)   | 13   |
| Development and adaptation of decision support tools for improved operation and maintenance  | 14   |
| Research into the performance of irrigation system turnover  | 15   |
| Development of an improved integrated river basin management framework   | 17   |
| Strengthening institutional and human capacity for research in water resources, with particular reference to irrigation and drainage | 18   |
| ANNEX 1: AUTOMATION IN THE SIDOREJO IRRIGATION SYSTEM  | 21   |
| ANNEX 2: RESEARCH INSTITUTES INVOLVED IN IRRIGATION AND DRAINAGE RESEARCH IN INDONESIA   | 23   |
| Central government research institutions   | 23   |
| Academic institutions  | 24   |
