The designations employed and the
presentation of the material in this magazine
do not imply the expression of any opinion
whatsoever on the part of the Secretariat of the
United Nations Industrial Development
Organization (UNIDO) concerning the legal
status of any country, territory, city or area or
of its authorities, or concerning the
delimitation of its frontiers or boundaries, or
its economic system or degree of
development. Designations such as
"developed", "industrialized" and "developing"
are intended for statistical convenience and do
not necessarily express a judgment about the
stage reached by a particular country or area in
the development process. Mention of firm
names or commercial products does not
constitute an endorsement by UNIDO.
The opinions, statistical data and estimates
contained in signed articles are the
responsibility of the author(s), including those
who are UNIDO members of staff, and should
not be considered as reflecting the views or
bearing the endorsement of UNIDO.
This document has been produced without
formal United Nations editing.

3 Welcome

UNIDO Director-General, Kandeh Yumkella,
introduces *Making It*.

6 Business matters: fact file

Global trends. Did you know?
Forthcoming events.

GLOBAL FORUM

7 Making it happen An entrepreneur's
perspective: Viet Nam.

8 Green industry in Asia – Conference
participants interviewed.

10 Hot topic – Is it possible to have prosperity
without growth? Can growth be green?

FEATURES

15

15 How I became an environmentalist:
A small-town story with global implications –
Phaedra Ellis-Lamkins, director of the US
organization, Green For All.

18 Old computers – new business –
Microsoft's Sean Nicholson outlines sustainable
solutions for tackling e-waste.

20 The challenge of climate change –
UNEP Executive Director, Achim Steiner,
believes that the green economy is an idea
whose time has come.

30

36

22 KEYNOTE FEATURE

We must let nature inspire us –

Eco-entrepreneur, Gunter Pauli, highlights the innovations and approaches that herald a new economic development model.

30 Why we need to green the global automotive industry –

The Economist Intelligence Unit's Gareth Leather suggests that emerging markets, rather than the developed world, will set the pace for the use of environmentally-friendly vehicles.

33 Factor Five – Ernst von Weizsäcker, co-chair of the International Panel on Sustainable Resource Use, sees a solution to global problems in a revolutionary increase in resource productivity.

36 Country feature: Rwanda means business –

His Excellency Paul Kagame, President of the Republic of Rwanda, answers questions about his country's development strategy.

40 From waste to profit –

UNIDO's Rene van Berkel explains how industrial ecosystems can turn surplus materials and energy into valuable resources and business opportunities.

22

46

POLICY BRIEFS

42 Closing the gap between 'doing well' and 'doing good'

44 Greening industrial policy

45 Disclosing carbon emissions
